Email: morgainer@co.wasco.or.us

1. Generator Information

2. Inventory of wastes you want to dispose of at this collection event

1

3. Certification for Conditionally Exempt Generators

Note: This page must be completed and submitted with the application if you are disposing of CEG waste at this event. If you are only disposing of waste pesticides at this event, you do not need to sign and submit this page with your application.

State and federal hazardous waste regulations limit the use of CEG hazardous waste collection programs to those businesses that generate 100 kilograms (approximately 220 pounds or 25 gallons) of hazardous waste per month. Businesses that generate more than this amount must use a licensed hazardous waste hauler to manifest and transport their waste. Therefore, we are requesting that you sign the following certification before disposing of your waste at the collection event:

I certify that my business generates less than 220 pounds of hazardous waste and 2.2 pounds of acutely hazardous waste per month. I also certify that I have not accumulated more than 2,200 pounds of hazardous waste (2.2 pounds of acutely hazardous waste) at this time. I understand that I must PRE-REGISTER before I can drop off my wastes at the collection event. I also understand that only the types and quantities of wastes listed on the Inventory Sheet(s) in Section 2 have been approved by CLEAN EARTH for disposal at the collection event. Finally, I understand that the state, local government or CLEAN EARTH does not assume liability for my wastes, and that future liability remains with my business.

Company Representative (print or type)

Generator (Company) Name

Generator (Company) Address

EPA/DEQ I.D. # (if company has one)

Signature of Company Representative

Instructions for Completing Waste Inventory Sheet

1. **Item Number:** Number each item (or category group of items) you want to dispose of at the collection event. Each item should have an individual number on its container as reference. The container number should correspond to the completed inventory sheet(s) submitted to Stericycle.
2. **Waste Description:** Describe, in as much detail as possible, wastes that you want to dispose of at the collection event. The description should include the chemical and trade name, how you use the material, physical state (i.e., liquid, solid, sludge, gas), chemical characteristics (e.g., flammable/ignitable), and chemical constituents and percentages from the label or material safety data sheet (MSDS). For pesticides (e.g., herbicides, fungicides, rodenticides, etc.), please include the EPA registration number, if available, trade name and percent concentration. When listing waste quantities, be accurate as possible. *Please avoid mixing your wastes together.*
3. **Quantity:** List the quantity of waste you want to dispose of at the collection event. As a rule, list liquids in gallons and solids and sludges in pounds.

Waste Inventory Sheet for Collection Event

(Copy and use additional sheets if needed)

Item Number	Waste Description	Quantity (lbs. or gallons)	Official Use ONLY
