

State of Oregon Department of Environmental Quality

Accredited Asbestos Inspectors

The following is a list of accredited inspectors who can provide asbestos surveys required by DEQ regulation [OAR 340-248-0270](#). Please see the [Asbestos Survey Factsheet](#) which outlines requirements for each survey. This is not a complete list of all accredited asbestos inspectors in Oregon. If you are an accredited asbestos inspector and would like to be included on this list, please contact the DEQ [asbestos coordinator](#).

DEQ cannot guarantee that the inspectors listed on this form have maintained their accreditation. Customers should verify the inspector's credentials by requesting a copy of the inspector's AHERA certification and ensuring that it has not expired. Services provided and costs are determined solely between the inspector and the customer. Including an inspector's name on this list does not constitute an endorsement by DEQ.
